- Your feedback is important to us. Please take our brief webinar evaluation after this session; link will be sent via email.

**CE Credit Available**

# OUR MISSION

Oral Health America's mission is to change lives by connecting communities with resources to drive **access** to care, increase **health literacy**, and **advocate** for policies that improve overall health through better oral health for all Americans, especially those most vulnerable.

# OHA PRIORITIES

OHA's Programs and Campaigns are designed to improve **access to care, oral health literacy** and **policies** that prioritize the impact of oral health on the overall health of all Americans – particularly those most vulnerable.

# Campaigns for Oral Health Equity

**Educate** the public, including policy makers, about the importance of oral health for overall health

**Emphasize** the need to prioritize oral disease alongside other serious health conditions

**Advocate for policies** that positively impact programs and stakeholders
